**Communication • Connection • Creation**

### 2019 MOTTO : “Communication • Connection • Creation”

To tackle another thrilling year, our motivational motto of 2019 “Communication • Connection • Creation” inspires us to achieve triumph by excellent communication skill, building connections, and creating innovative products and marketing initiatives.

The logo uses three different colors of capital C and icons to represent the elements of communication, connection and creation. The overlapping parts between the three alphabets of C's also indicate that the three elements are closely linked, which is indispensable. Additionally, the three different colors also symbolize the different teams of K-LINK from all over the world, and each is independent but connected to one another. This is the spirit of unity that will lead us to a greater height of achievement.

# STOP AT NOTHING !

## The sky's the limit, Sow the seeds for success

My husband and I were just ordinary workers who tried our hardest to make ends meet. Eager to have a better life for our family, we went to Singapore and worked extremely hard to ensure our family a better life. We were extreme hard workers and we persevered for many years until one day, my husband's health started deteriorating. We have tried every health medication out there and nothing worked until my husband came across with the K-LINK's K-Ayuverda series. K-Ayuverda made a drastic change to my husband's health and ever since that happened, I strive to make a difference in my friends and family's lives. I wanted to share this extraordinary products to everyone, hence, I made the decision to join K-LINK International. K-LINK International has changed my life completely and I am grateful for having this company along my journey. My success today would not have happened without the people that had helped me along the way. I truly appreciate all the effort and help from K-LINK International for making my dreams and goal possible.

### Did you encounter any difficulties? If so, how did you overcome them?

It wasn't always easy as we will encounter people who tries to put us down. However, these negative opposing force shall not discourage us. We should use it as a motivation to stay persistent and endure through the difficulties because we should never let one's judgments bring us down. I expected highly of myself and I wanted to be the best of the best. With this expectations, I have managed to be the first female SCA in both Singapore and Malaysia.

### What is your advice to other members in K-link who wants to succeed?

Success does not come easily. The key is to be persistent and never give up as there is no miracle to the road of success. We have the option to strive for better choices in our lives. Nothing comes easy in life but if you work hard consistently and believe the impossible, the next Senior Crown Ambassador title could be yours! As for me, I will also try my very best to strive to be the first woman to achieve the Royal Crown Ambassador title in both Singapore and Malaysia. Dear K-LINK comrades, let's keep hustling and meet at the peak!

### How did you start working with K-LINK?

I worked really hard and tirelessly to make a living in Singapore. My husband and I worked extremely hard to the point where my husband's body started deteriorating. Fortunately, we came across the K-Ayuverda series and my husband's body started showing great recovery and progress. With the intention of helping others, it was then I have decided to join K-LINK International after seeing how reliable and effective the products are.

### What actually motivates you to reach the SCA status?

There were two reasons, the first one was to promote these incredible products to more people and the second reason was to utilize this platform to provide a better health quality for my family, especially my in laws. It was my responsibility to ensure everyone to have the access to these reliable health products.

### How did you achieve success through K-LINK?

I would like to thank K-LINK International for bringing my dreams to life. If it wasn't for K-LINK International, I would have been just an ordinary 9am to 5pm worker and would not be as successful as I am today. Being able to be where I am today was not easy, a great company and team comes hand in hand in order to achieve success. Thanks to the cooperation of K-LINK International and the people I meet along the way, I am able to really achieve my success.
